

roq Prompt Tuning (High Priority)

Current system works.

Need:

- Better interviewer personalities
 - Better follow-up questions
 - Stronger evaluation prompts
-

2. Avatar Speaking (Very High Impact)

Current:

Avatar

↓

Text Question

Target:

Avatar

↓

Text-to-Speech

↓

Lip Sync

This will dramatically improve immersion.

3. Real Multi-Interviewer Identity

Currently you parse:

[Technical Interviewer]

Improve to:

Alex → Technical

Sophia → HR

David → Domain Expert

And highlight the speaking avatar.

4. Eye Contact & Posture Analysis

Add:

- MediaPipe
- Webcam tracking

Metrics:

- Eye contact
 - Head movement
 - Posture
-

5. Voice Analysis

Using Librosa:

- Speaking speed
 - Pauses
 - Filler words
 - Confidence score
-
